

#### Nutritional Value/Kg (When Packed)

##### Probiotics

Propionibacterium	10000 mg.
Freudenreichii	
Saccharomyces	120000 million c.f.u.
Cerevisiae	
Lactobacillus	6000 million c.f.u.

##### Enzyme Complex

(Xylanase, Glactomannase, Alpha Amylase, Beta Amylase, Trypsin)	1500 mg.
--	----------

##### Fat Soluble Vitamins

Vitamin A	2000000 I.U.
Vitamin D3	500000 I.U.
Vitamin E (F.G.)	2000 mg.

##### Water Soluble Vitamins

Vitamin B1	1300 mg.
Vitamin B2	600 mg.
Vitamin B12	3000 mcg.
Vitamin H (Biotin f.g. 2%)	200 mg.

##### Macrominerals

Calcium	220 gms.
Phosphorus	100 gms.

##### Trace Minerals

Copper glycinate	5000 mg.
Cobalt	150 mg.
Iron glycinate	2000 mg.
Iodine	500 mg.
Manganese glycinate	3000 mg.
Sod. Selenite	10 mg.
Zinc glycinate	6000 mg.
Bioactive Chromium	50 mg.

##### Amino Acids

L-Lysine	1000 mg.
DL-Methionine	200 mg.

##### Herbs

Asparagus Racemosus	50 gms
---------------------	--------

##### Features

- Glycine chelated
- Reduces mineral antagonism
- Reduces degenerative effect of trace minerals on vitamins
- Stable in rumen environment & abomasum
- Superior bioavailability
- More efficient mineral delivery system

## High Quality Supplement of Glycine-chelated Minerals, Vitamins, Probiotics, Enzymes, Herbs For High Yielder

• Better Fertility

• Superior Bioavailability

• Increase Milk, SNF & Fat %

#### Benefits

- Improves Reproductive efficiency
- Improves Fertility and Conception rate
- Improves Milk production and fat %
- Enhances growth and immune function
- Improves hoof health
- Reduces somatic cell count
- Enhances rumen function

#### Mixing Ratio

- Large Animal: 50-100 gm / animal / day to be mixed in the feed
- Small Animals: 20-30 gm / animal / day to be mixed in the feed or as directed by the Veterinarian.

**Net Weight: 1 Kg.**
